

COLOURS BY GUTMANN

The **GUTMANN** colour box shows a selection of the most popular colours. Included are powder-coated and anodised aluminium colour samples which can be used to match elements in your project harmoniously. Additionally, there are more than 1000 powder and surface variants that can be explored using our colour configurator.

Further colour samples are available on request. Please use the contact form on [gutmann.de/coloursbygutmann](https://www.gutmann.de/coloursbygutmann).

We meet the highest and current requirements for coating companies according to GSB and QUALICOAT certification criteria.

COLOURS BY **GUTMANN**
24 Colour samples, 9x6 cm

The colours in the colour sample box show only a small area of the overall picture. The possible discrepancies result from manufacture.

Below you will find an overview of all colours included in the **GUTMANN** colour box. For more information, please use our colour configurator.
